

Case Study

Cellar Conversion – Billesdon, Leicestershire

Clients: Mr and Mrs Beretta

Background:

Cellar conversion within a 17th Century former Coaching Inn to form a new domestic kitchen. Beautiful Basements was commissioned to carry out the entire conversion.

Work commenced by lowering the floor and underpinning the existing structural arches. A new injection DPC was installed. The arches and vaulted ceiling were then grit blasted revealing the original brickwork to create a strong design feature.

A new patio opening was formed by knocking out some of the existing arched panels.

Waterproofing Method:

Waterproof concrete floor, Safeguard UK CDM system.

Build Programme:

Approx. 2 months
