

# Case Study

## New Build Structural Waterproofing – Nottinghamshire

Client: Mr & Mrs Lindsay

*Background:*  
New build in Lowdham, Nottinghamshire.  
Beautiful Basements was commissioned to complete internal structural waterproofing (Grade 3) for a large new build basement. This included an external fillet to the floor/wall junction. A [Delta CDM system](#) was installed together with a pump and high water alarm.

All work completed is fully compliant with BS 8102.
